

Simple, powerful, compliant

Designed in line with IHI guidelines to help you create and interact with SPC charts

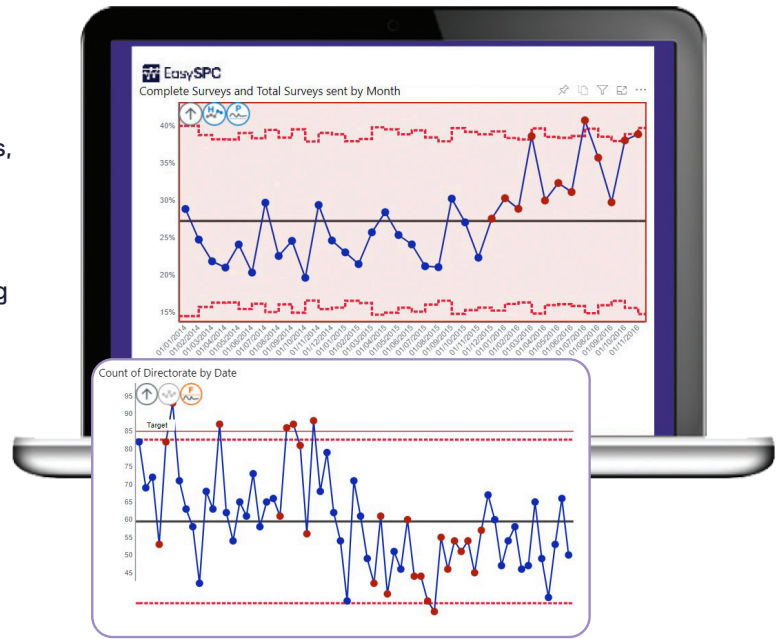

Designed by the NHS, for the NHS

Developed from the Institute for Healthcare Improvement (IHI) guidelines ensuring best practice, and with options to use NHSI Making Data Count icons, EasySPC is designed for all healthcare environments.

EasySPC delivers all the industry standard SPC run and control charts, in an easy to understand format. Solve key challenges by fixing baselines, recalculating limits, annotating, and automatic updates for operational reporting.

EasySPC helps your organisation to monitor process variation and act quickly to identify any potential process or operation activity bottle necks.

All the features you need to create SPC charts using your own data

- ✓ Control charts for all levels across an organisational structure

ELFT creates 30,000 SPC charts automatically for outpatients, everyday

In partnership with ELFT, BCN Group developed custom visuals in Power BI

These unique charts have features no other SPC tool in Power BI currently has, enabling the trust to save in excess of 19 staff days every day producing the same number of charts as if they continued with their legacy tools.

“ EasySPC has been instrumental in helping us roll out Microsoft Power BI and fully understand the potential of the platform. With their help, we were able to produce a groundbreaking SPC custom visual along with some fantastic Power BI reports ”

Forid Alom,
Strategic Lead for Information Analytics

“ A scary 141 hours of staff time or 19 staff each day would be theoretically required just to produce the scale of the solution we now have at the moment ”

Tom Nicholas,
Associative Director for BI and Analytics

EasySPC features and case studies

EasySPC is designed and developed with both end users and report creators in mind.

From supporting which chart types to use, to analysing charts with key SPC functionality such as re-phasing, to displaying annotations and icons for easy to interpret insights.

If your organisation is currently using, or is wanting to use SPC Charts in its board reports or operational reports, EasySPC is the only tool on the market that enables you to easily achieve this. EasySPC allows you to be flexible with your charts, and achieve real-time reporting.
