

EasySPC

Investing in ongoing development

BCN Healthcare are committed to helping NHS Trusts harness the power of their data. That's why we're investing further in EasySPC – ensuring it continues to support your improvement goals, reduces reporting burden, and helps scale Statistical Process Control across your organisation.

It's easier than ever to build SPC-powered board reports that are aligned with NHS best practice. You can now:

1

Group metrics using a new Scorecard view

2

Replace RAG ratings with SPC indicators and icons, such as Making Data Counts.

3

Rapidly generate and manage SPC charts at scale, saving hundreds of staff hours each month.

Upcoming releases

H2 2025 and beyond*

A simpler user experience

We're redesigning the EasySPC interface to make tasks more intuitive – from building reports to downloading – including a new resource hub featuring:

4

A central location for all things EasySPC

5

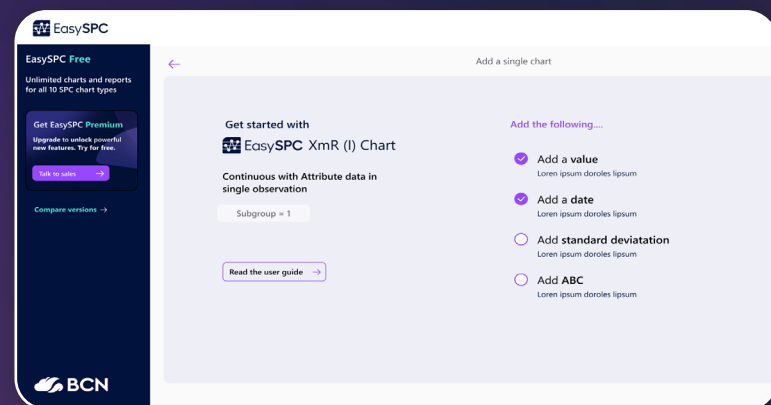

Step-by-step guidance

6

FAQs and self-service support tools

7

We're also upgrading EasySPC's underlying infrastructure to enable faster update releases and enhance overall performance.

Faster, future-ready infrastructure

"EasySPC evolves with you. Our ongoing user feedback programme lets you submit feedback and make suggestions for future improvements – we're always looking to ensure it continues to meet your needs and provide value."
