

Copilot Skills Accelerator

Flexible Microsoft Copilot Enablement Programme

The Copilot Skills Accelerator is a flexible, live-led enablement program built around our proven curriculum. It delivers practical, role-relevant training and coaching across key areas of Copilot, providing structured learning while allowing for real-world experimentation and feedback.

The key benefits

Build confidence using Copilot with structured, role-based training

Gain practical skills across Word, Outlook, Teams, Excel, PowerPoint & more

Embed Copilot into daily workflows with expert-led coaching and Q&A

Drive consistent adoption and measurable ROI across teams

Who is this for?

Anyone or any business wishing to advance their Copilot knowledge to use it capably and confidently.

Why it matters

Organisations are eager to unlock the value of Microsoft 365 Copilot but often lack the internal expertise or time to guide their people through adoption. Staff may feel overwhelmed, unsure where to begin, or use AI sporadically without strategy or structure. Without proper enablement, ROI is difficult to realise.

What the programme includes

- 4 x 90-minute live training modules:
 1. Introduction to AI and Copilot
 2. Copilot for Collaboration (Word, Outlook, Teams)
 3. Copilot for Analysis (Excel, Loop, PowerPoint)
 4. Agentic AI, Best Practice & Future Use
- 4 x 30-minute fortnightly check-ins for Q&A and on-support
- Options to compress or extend depending on business needs, the Accelerator adapts to your pace

Copilot support from experts you trust

As your Microsoft partner, we're here to help you unlock even more value from your existing investments. With deep expertise in Microsoft 365, AI and data strategy, we'll help you deploy Copilot in a way that delivers value and makes sense – for your teams, your outcomes, and your bottom line.

Are you ready to get your teams confidently using Copilot?
Inspire your people without commitment.
