

Microsoft Copilot Value Audit

Smarter licensing. Maximum ROI.

Free licencing recommendations – backed by your own data – to unlock value and maximise the return on your investments.

What it includes

Personalised
ROI insights

Licencing
recommendations

Training impact
analysis

Adoption strategy
guidance

Why it matters

Copilot is a powerful tool that can deliver major productivity and efficiency gains. But at £23.10 per user/month, it needs to be deployed smartly to create the most value. Our Copilot Value Audit shows you how to get it right, first time.

Free for existing BCN clients

What you'll get

You'll receive a fully personalised report, built using your actual Microsoft 365 usage data.

This includes:

- **Clear recommendations** on who to licence first, and why
- **Cost-benefit analysis** across roles and salary bands
- **Comparison of ROI** with and without Copilot training
- **Benchmarked figures** to show the real-world impact
- **Strategic rollout guidance** to maximise adoption and value

ROI impact example

Calculations based on top 30 users.

Salary	£25K	£40K	£80K
Daily ROI	£131	£210	£419
Weekly ROI	£983	£1,572	£3,145
Monthly ROI	£3,908	£6,266	£12,556
Yearly ROI	£46,893	£75,196	£150,669
Copilot Annual Cost	£10,256	£10,256	£10,256

Copilot support from experts you trust

As your Microsoft partner, we're here to help you unlock even more value from your existing investments. With deep expertise in Microsoft 365, AI and data strategy, we'll help you deploy Copilot in a way that delivers value and makes sense – for your teams, your outcomes, and your bottom line.
