

Free Data Assessment

Make smarter decisions, faster.

In this 60 minute session, we'll work with you to uncover how your business processes data today and how it could be working harder for you tomorrow. This session will help you identify opportunities to streamline, optimise, and innovate.

Benefits of the Session

As a leading Microsoft Partner and data experts, we'll help you better understand how your data is used across the business and identify practical ways to improve reporting, efficiency, and decision-making.

1. Increase Efficiency

Identify and eliminate bottlenecks in your reporting and data workflows.

2. Enhance Productivity

Free up time and resources by automating repetitive tasks and improving data access.

3. Drive Better Decisions

Gain clarity on your data landscape and uncover automated insights that support strategic planning.

What to Expect

1. A guided discovery session to explore your current data estate
2. A review of your reporting processes, systems, and inefficiencies
3. A clear, actionable plan to unlock value from your data

Who Should Attend?

This session is ideal for business decision-makers and report owners, including:

Finance, HR, IT, Sales, Marketing, and Operations Directors, as well as Departmental Managers.

What You'll Learn

Reporting Insights

Understand how reports are built, where your data lives, and how it flows across your business.

Process Automation Opportunities

Identify time-consuming manual tasks and quantify the ROI of automation [e.g. Saving 5 hours/month = 60 hours/year].

AI Integration Potential

Discover how AI can support smarter, faster decisions and deliver predictive insights.

Funding Eligibility Check

Find out if your business qualifies for funding support to help accelerate your data

Why BCN?

As a Microsoft Solutions Partner, BCN's expert people combine deep knowledge with the best of Microsoft's technology across data, automation, and AI. With a client-first mindset, we empower organisations to work smarter, move faster, and unlock the full potential of their teams through intuitive, transformative technology.
